

## RANGE COMPOSITION

TCF transportation trolleys derive from the broad range of equipment and accessories available to provide innumerable installation possibilities.

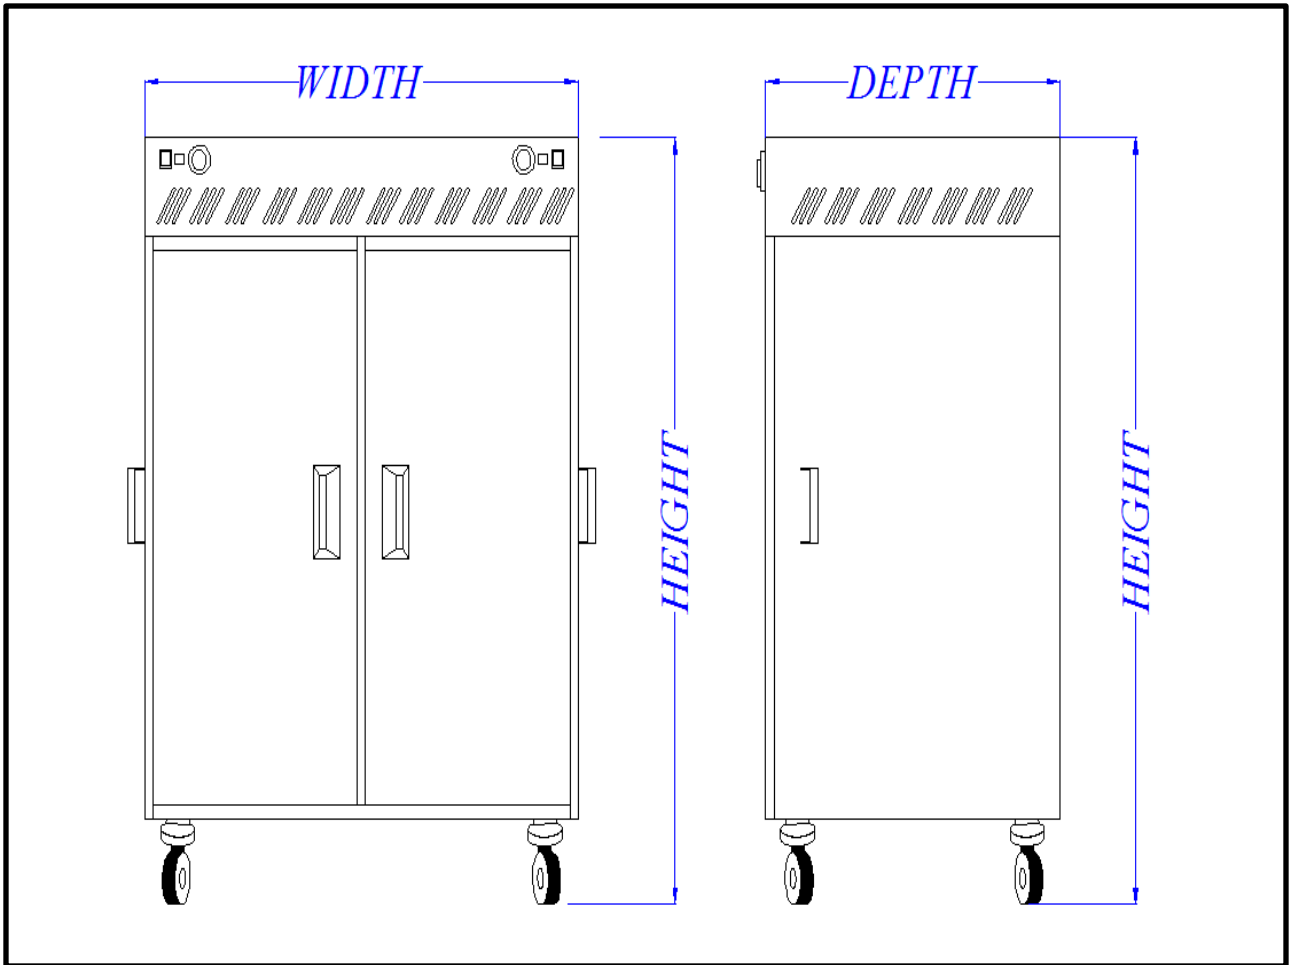

The transportation trolleys guarantee the transport, conservation and distribution of food in perfect condition in terms of hygiene, temperature and safety. The models detailed on this sheet are heated transport boxes on wheels.

## HEATED TRANSPORTATION TROLLEY

### Technical Custom Fabrication Product Description

-  A sealing strip around the door guarantees a perfect closure with max. opening of 270° and one piece hinges from top to bottom.
-  Handrail in stainless steel to be used as handle for easy movement.
-  Complete with pitch runners.
-  Air slots behind the runners allow for a uniform temperature throughout the container.
-  Fixed thermostat, thermometer, and indicator light.
-  Exterior frame in s/steel and panels in impact resistant fiberglass.
-  4 wheels (2 fixed and 2 swivel with brakes).
-  Removable runners and back panels shaped for an easy cleaning.
-  Large smooth surfaces.

<b>TECHNICAL DATA</b>		
<b>WIDTH</b>	<b>DEPTH</b>	<b>HEIGHT</b>
1220	860	1780
<i>All measurements are in mm</i>
